Challenge #11 – 12: HOW TOS

1. TOP NAVIGATION

2. RESPONSIVE TOPNAV
    -After changing the size of screen my TOP NAVIGATION will shrink till it form a NAVIGATION
    BAR then it will hide the display navigation, it will be visible after clicking the NAVBAR.

3. NAV ICONS
   -My icon is on the left side of the text and it is completely visible.

4. STICKY NAVBAR
    -To make my navbar sticky I put "position fixed" as its style.

5. MOBILE MENU
    -The mobile menu is on top left side of the page, and it can be only seen when the screen
    shrinks to a certain size.

6. LOGIN FORM   7. REGISTER FORM
